Annexe du diagnostic :
Atlas de la tache urbaine principale

Projet arrêté le 22/09/2022

AVANT-PROPOS

Le présent atlas vise à identifier les limites de la « tache urbaine principale » du SCoT, mentionnée dans certaines prescriptions du DOO et qui identifie les contours des principaux secteurs urbanisés du territoire.

Cette cartographie qui est établie à partir des « espaces aménagés » de la base de données de TOPOS (voir détails dans le rapport de présentation) est présentée ici à titre indicatif puisqu'elle **doit faire l'objet d'une actualisation à la date d'approbation du SCoT.**
